brain function and healthy, youthful,
rejuvenated skin.

Take 1-3 capsules per day with food.

GLUTEN FREE • GMO-FREE

FAQ

LOVINGLY FORMULATED AND MANUFACTURED IN AUSTRALIA

OK, HEMP 101: WHAT EXACTLY IS HEMP?

Hemp is a crop belonging to the Cannabis sativa family of plants. It has multiple uses and applications, and not just as a food product. Hemp byproducts are used in textiles, paper, clothing, paint, insulation, biodegradable plastics, animal feed...

HOW DO YOU MAKE YOUR HEMP SEED OIL?

It's made here in Australia, from ethical, sustainable, GMO-free Australian hemp. We cold press it to ensure maximum purity and potency.

CAN HEMP IMPROVE MY HEALTH?

That's a big YES. It's highly nutritious, packed with essential fatty acids (omega 3, 6 and 9), minerals and vitamins. It's anti-inflammatory. It has antioxidant properties. It can help improve your skin, joints, heart and cardiovascular health. It supports your immune system and can even help you lose weight.

WHAT ABOUT MY MENTAL HEALTH?

Hemp is also fantastic for your mental health and well-being. It delivers all those vital nutrients to your brain, which help reduce stress and anxiety, improve memory and support neurotransmitter function.

IS HEMP OIL THE SAME AS CBD OIL?

No, hemp seed oil is derived from hemp seeds and is 'cannabinoid deficient'. It doesn't contain THC (a.k.a. tetrahydrocannabinol, the high-producing psychoactive compound in cannabis) so it's safe, legal and beneficial in many ways. Just ask the cultures around the world that have consumed hemp for millennia.

CAN HEMP CAUSE AN ALLERGIC REACTION?

Unlikely. Hemp allergies are rare, but a handful of reports have linked hemp to anaphylaxis.

BEFORE USE

Check with your health professional if you are pregnant or taking any medications or have a hemp allergy.

STORAGE

Store in a cool, dry place, below 25°C and away from direct sunlight and heat. Do not use if the cap's seal is broken.
